Scientific Knowledge.

Prof. dr. dr Gerhard Ruhenstroth-Bauer and Miroslaw Magola in the Max Planck Institute of Biochemistry in Martinsried, a suburb of Munich.

Science is a way of knowing about the natural world, based on reproducible observations, controlled experiments and theoretical reasoning.

In the modern world, all citizens need to be scientifically literate.

I would like to show my demonstration in a live television program or a talk show in the United States of America (CNN , CBS , NBC or Fox the main US television network) and in this way I would like to start a new discussion about genetic research and human consciousness.
